

$$= \text{Diagram with } \chi \text{ line} \left(1 + O\left(\frac{m_A^2}{E^2}\right) \right)$$

The right-hand side of the equation shows an equals sign followed by a Feynman diagram. This diagram is identical to the one on the left, except that the wavy line is replaced by a dashed line labeled χ . To the right of this diagram is a factor in large parentheses: $\left(1 + O\left(\frac{m_A^2}{E^2}\right) \right)$.
